Summary description

I am Swedish and an internationally experienced CIO/Executive with a strong track record in enterprise performance and transformation in the industry sector. As a leader I am a combination of a decisive leader and a diplomat, balancing the company targets with individual needs, to ensure a good commitment and results. During my whole career I have worked in an international environment, in several European countries, India and the US. Currently I am working as a management consultant at No WaIT AB, angel investor for sustainable energy and board member in several companies.

The following are some of the key achievements that I have been responsible for in my previous positions:

- transforming IT org and SSC to achieve better output and efficiency
- business - IT alignment, to ensure increased customer focus and value capture
- managing companywide transformation programs, such as digitalization, ERP, outsourcing, cost performance, organization changes according to set target
- supply chain dvt and transformation, linking sales and production
- managed M&A, multiple growth projects and divestments successfully
- integration of technical IT into the corporate IT organization
- established a unified service and project portfolio management with increased business value capture and delivery performance
- increased end user and stakeholder satisfaction
- cost performance dvt according to top benchmark level for the industry

I have been working in different leading/executive positions for many years and in that role trying to get my people both involved and driving the overall agenda, take responsibility, make sure that the team performs well, develop skills and leadership as well as ensure that people are feeling well at work. I have also enabled supplier and partners to be better connected and committed to the strategy and overall targets.
